Available: APRIL 2011

MK11L & MK11 WHITE

New Bored-out version of MK11, is significantly lighter and comes with either Black or white caps.

Available: APRIL 2011

C300

New compact dimensions, smaller than existing line, new/simpler platform; replaces the R395 line. Bolder styling, anti-scratch front soft-cover. New mechanical system providing unrivalled performance in the conventional downstream 2nd stages segment. Optimal Flow Design™ valve and Inhalation resistance adjustable control, Dive/Prediver switch.

Available: APRIL 2011

A700 BLACK TECH + MK25 BLACK

The MK25 and A700 have been given a special Gunmetal color coating. PVD (Physical Vapour Deposition) is a finishing process that can be applied on a polished chrome metal surface, to improve hardness, wear resistance, reduce friction and oxidation resistance.

- 2500HV hardness for anti-scratch effect (chrome 900HV, stainless steel 190HV)
- Not affected by UV rays
- 100% not toxic
- Extremely high corrosion resistance
- Low friction coefficient

Available: JANUARY 2011

- Heavy-duty grip sole
- Lace front for security and easy adjustment.

Available:
DECEMBER 2010

EVERDRY4 DRY SUIT

- 4mm high-density neoprene weighs 50% less and is significantly softer than a traditional dry suit.
- Ensures better protection and buoyancy stability at depth than a traditional wetsuit.
- Featuring Si-Tech balanced side-activated inlet and adjustable outlet valves, facilitating better buoyancy operation and increased comfort.
- Soft flexible neoprene socks, fitting a broad range of feet and body combinations. The suit can be worn with SCUBAPRO Rock Boots or neoprene boots.
- Durable Dry back zipper with neoprene protection flap.
- Convenient and roomy pocket with zippered closure
- Available in both men's and women's sizes. And our lady's version is a specifically cut and shaped pattern
- Reversed construction rolling neoprene neck seals guarantee watertightness without the hair-pulling or potential allergy risks of traditional latex. Two exterior velcro closures offer complete adjustment and comfort.
- Easy-to-repair neoprene wrist seals for no-leak insulation and comfort.
- Elastic, adjustable & removable suspender system for a better fit.
- 5 & 6.5mm anatomically shaped hood with prolonged neck & soft skin-like neoprene face & neck seals, plus air release valve system, keeps you dry.
